

# COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signal that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM-110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM-110 designation at another community college. Students should consult with a counselor to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

C-ID is most useful in determining how courses with C-ID approval are accepted across the community colleges specific to courses included in associate degrees for Transfer.

The following pages list Napa Valley College courses that articulate with C-ID descriptors. Students may consult the ASSIST database at [c-idsystem.org](https://c-idsystem.org) (<https://c-idsystem.org/>) for specific information on C-ID course designations.
